

**Idaho Law On
Lateral Ditch Water Users' Association;
Distribution of Water to Consumers,
Wasting Water; Irrigation Lateral Districts and
Various Interferences.**

TITLE 42

CHAPTER 13

LATERAL DITCH WATER USERS' ASSOCIATIONS

42-1301. ORGANIZATION -- OFFICERS -- RULES.

Where three (3) or more parties take water from same canal or reservoir at the same point to be conveyed to their respective premises for any distance through a lateral or distributing ditch or laterals or distributing ditches such parties shall constitute a water users' association known as "Water Users' Association of Lateral or Laterals." Such water users' association may meet and organize at any time after thirty (30) days after this chapter shall take effect, and shall meet annually thereafter between January first and the last Monday in March of each year, at the call of the secretary of such association, said secretary to give ten (10) days' notice by mail of such annual meeting; provided that if for any reason the secretary should fail to call a meeting, then the annual meeting of such association shall be held on the last Monday in March of each year. At such annual meetings each water user shall be entitled to one (1) vote in person, for each inch and a fractional vote for each fraction of an inch of water which such water user is entitled to receive from such laterals, and a corporation shall vote by one (1) of its officers designated by it. Such association shall organize by the election of a chairman, vice-chairman and a secretary-treasurer, which officers shall also constitute the board of directors of such association, and shall hold office for one (1) year and until their successors are elected. Such association at the annual meeting shall also elect a manager of said lateral or laterals to be known as "lateral manager" for the succeeding season and shall fix the compensation of said manager, and of all officers. Such association may adopt such rules and regulations for the management of said lateral or laterals or distributing ditch or ditches and the delivery of water therefrom as they deem best, and may, by majority vote, if it be deemed for the best interests of the association, combine one or more laterals and abandon laterals not in use, and do any and all things not in conflict with the provisions of this chapter or the laws of this state wherein the best interests of the association will be furthered.

42-1302. LATERAL MANAGER -- ELECTION -- DUTIES.

Should any water users' association at its annual meeting fail to elect a lateral manager or fix his compensation such lateral manager may be elected by the board of directors of such association, who may also fix his compensation. The manager of any lateral shall, in addition to the duties prescribed by the association, perform all duties fixed for such lateral manager under the provisions of sections 42-907 and 42-910, [Idaho Code,] except as modified by this chapter.

42-1303. LATERAL DITCHES -- REPAIRS, IMPROVEMENTS, AND MAINTENANCE -- ASSESSMENT OF COSTS.

Immediately after the annual meeting of any such association the directors thereof and the lateral manager shall make an examination of the lateral or distributing ditch or ditches, and make an estimate as to the cost of the necessary repairs and improvements thereon, and the maintenance thereof for the succeeding season, including the compensation of officers and lateral manager and such total cost and charges shall be assessed pro rata to each water user from said lateral, in the following manner, if agricultural land in proportion to the water which the owner is entitled to receive from such lateral or ditch, and if lots within any city or village, then the assessment may be made upon the basis of each lot, the same to be uniform upon lots of the same size. The improvement, repair and maintenance of any such lateral or distributing ditch shall be under the direction of the directors of the association.

42-1304. ASSESSMENTS -- NOTICE -- PENALTIES FOR DELINQUENCY.

On or before the fifteenth day of April in each year the secretary of the association shall notify each water user of the amount assessed against him for that year as herein authorized, and the same shall be due and payable on the first day of May of each year and if not so paid on or before the fifteenth day of June of such year, a penalty of ten per cent (10%) shall be added thereto, and the total amount due shall then draw interest at the rate of ten per cent (10%) per annum from said fifteenth day of June of such year until paid.

42-1305. DELINQUENT USERS NOT ENTITLED TO WATER.

No water user shall be entitled to demand or receive water from said lateral whenever any such assessment is due and unpaid, and the lateral manager shall not distribute any water to such water user while delinquent in such payment except upon order of the board of directors of the association who shall have authority to cause such water to be delivered: provided, the water user shall give such security for the payment of such assessment against him as shall be required by the board of directors.

42-1306. COLLECTION AND DISBURSEMENT OF FUNDS.

The lateral manager shall collect all assessments so made and pay the same to the secretary-treasurer taking his receipt therefor. The secretary-treasurer of this association shall keep the funds of the association in the name of the association and shall draw warrants or checks thereon to pay the costs and expenses of the management of said lateral as herein provided for upon the order of the board of directors, and shall perform such other duties as the association may prescribe.

42-1307. ACTION FOR ASSESSMENT -- ATTORNEYS' FEES.

In case any assessment, as herein provided for is due and unpaid the association may sue to collect the same, in the name of its secretary-treasurer as such, in any court of competent jurisdiction, and in addition to the amount due including all penalties and interest, and all costs incurred in said action, may collect a reasonable attorney's fee in such action to be fixed by the court.

42-1308. APPOINTMENT OF LATERAL MANAGER BY DIRECTOR OF DEPARTMENT OF WATER RESOURCES.

(1) In the event that the water users or the board of directors of any lateral or ditch association do not meet and elect a lateral manager as provided for in this chapter or a lateral manager is not selected as otherwise provided by law, then, the director of the department of water resources may appoint and fix the compensation of a lateral manager, upon the written petition of a water user alleging that water is not being apportioned and distributed properly among the users from the ditch or lateral and that the rights of the water user are being injured thereby.

(2) If the water users also have failed to elect association officers, the lateral manager appointed by the director may exercise the duties of the association officers, including the making and collection of assessments, but not the borrowing of money, as is necessary to achieve the proper allocation and distribution of water from the ditch or lateral and without regard to the statutory dates for the performance of these duties.

(3) The lateral manager appointed by the director shall hold office only for the period of time fixed by the order of appointment and in no event beyond the remainder of the year in which appointed.

(4) If the lateral is located within a water district established pursuant to chapter 6, title 42, Idaho Code, the director shall advise the district watermaster of the receipt of the petition and invite the watermaster to make recommendations concerning the need for appointment of a lateral manager and the person to be appointed.

(5) Upon receipt of a petition filed pursuant to subsection (1) of this section, the director shall make a reasonable effort to provide written notice of the petition to any irrigation district, canal company, or other water distribution entity that supplies water to the lateral, and to all persons having rights to the use of water from the lateral. Except in the case of serious threat of imminent injury to person or property, the director shall allow fourteen (14) days for written response to the petition.

(6) Based upon a review of the petition, the responses thereto, the recommendations of the watermaster, if any, and any investigation by the department of water resources, the director shall issue an order with findings either appointing a lateral manager or declining to appoint a lateral manager. Any person aggrieved by the order of the director shall be entitled to request a hearing before the director pursuant to section 42-1701A, Idaho Code.

42-1309. ASSOCIATION AUTHORIZED TO BORROW MONEY, MORTGAGE OR PLEDGE ASSETS.

Lateral ditch water users' associations are expressly authorized to borrow money from any private or governmental source, to be repaid over a period of years, and to levy assessments over such period of years for the purpose of repaying said loan, and they are also authorized and empowered to mortgage and/or pledge any of the assets of said associations as security for said loan; providing, however, that before any money can be borrowed or any mortgage or pledge can be made and entered into, all members of said association shall be notified of an election by two (2) weekly publications in a legally authorized newspaper, as defined in section 60-106, Idaho Code, within the county in which the association is located, said notice to provide that an election is being called to determine whether or not the association shall be authorized to borrow money and mortgage and/or pledge its assets, and shall also state the date, time and place of said election, which shall be held within ten days after the date of the last publication of said notice.

If a majority of the total outstanding shares shall vote at said election in favor of borrowing said money and mortgaging and/or pledging said assets, then said association, through its president and secretary, shall be authorized to borrow said money and mortgage and/or pledge its assets.

TITLE 42

CHAPTER 9

DISTRIBUTION OF WATER TO CONSUMERS

42-901. APPOINTMENT OF WATERMASTER -- APPOINTMENT BY COURT.

It shall be the duty of those owning or controlling any ditch, canal or lateral to appoint a superintendent or watermaster, whose duty it shall be to measure the water from such ditch, canal or lateral through the outlet of those entitled thereto, according to his or her pro rata share: provided, that any vicinity or neighborhood, the inhabitants of which use the waters of any ditch, canal or lateral for the purpose of irrigation, or have or claim a common right to the waters of any ditch or lateral for such purposes, provided the waters so claimed or used have not been allotted to the individual users thereof, shall constitute a water district.

Any one or more of said joint owners so using the water of any ditch, canal or lateral as aforesaid, when the appointment of a watermaster can not be agreed upon, may petition the judge of the district court in whose district the ditch, canal or lateral may be located for the appointment of a watermaster for said ditch, canal or lateral, and shall set forth in said petition the facts of his or her ownership in said ditch, canal or lateral; the ownership and interest of all other joint owners; the location and length of said ditch, canal or lateral, and requesting said district court to appoint a watermaster to take charge of the same. Upon due

notice being given to all of the water users under said ditch, canal or lateral, and after hearing before said court, it shall be the duty of the judge of said district court if he deem it necessary or equitable in order that the rights of all water users under said ditch, canal or lateral may be protected, to appoint a watermaster for the ditch, canal or lateral described in the petition. Said watermaster to receive such compensation as the court in his judgment may deem adequate, and shall be paid in the same manner as is provided for the payment of watermasters under chapter 5 [6] of this title, and shall perform the same duties and have the same power and authority as other watermasters appointed or elected in accordance with the provisions of this code.

42-902. INJURING DITCH OR HEADGATE -- TRIPLE DAMAGES.

Any person who, without the consent of the watermaster of the district, diverts any water from the ditch or channel where it was placed, or caused, or left to run by the watermaster or his deputies, or who shuts or opens any ditch, gate or dam with intent so to divert any water, and thereby deprive any person of the use of the same during any part of the time he is entitled to such use, or who, without the consent of the watermaster, cuts any ditch or the banks thereof, or breaks or destroys any gate or flume, is liable in a civil action to any person injured thereby in three times the actual damage sustained in consequence of any such wrongful act or acts.

42-903. HEADGATES AND MEASURING DEVICES -- WATER COMPANIES TO FURNISH.

Any person, association or corporation delivering or distributing water under any fixed annual charge or rental shall provide the necessary gates and measuring devices to render possible and practicable a measurement of the quantity of water being delivered to any consumer (or number of consumers using a common lateral or distributing ditch); and the price charged for the annual use of the water so distributed shall be in proportion to the quantity of water delivered from the works of such person, association or corporation. Such measuring devices shall be of such a character, and provided with such gauges or scales, that the quantity of water being delivered at any time can be ascertained by inspection; and shall be of such general plan as shall meet with the approval of the department of water resources, which shall inspect any such devices whenever possible to ascertain their character, and the department shall furnish such general information and instructions to any consumer, or the watermaster of any number of consumers of water, as may be necessary to enable him to ascertain the quantity of water flowing through any such measuring device.

42-904. DIVISION OF LAND INTO CLASSES BY PRIORITY.

When any ditch, canal or reservoir delivering or distributing water to several users has one or more rights or priorities by reason of enlargements made from time to time, the right of the land being irrigated by such works shall be divided into classes; rights of the first class belonging to those lands reclaimed between the dates of the first and second priorities or rights of such works; rights of the second class belonging to those lands reclaimed between the dates of the second and third priorities of such works; rights of any other class being

determined in like manner; but all the rights belonging to the same class shall be equal and subject alike to the regulations of their respective class.

42-905. POINT OF DELIVERY.

Any person, association or corporation which may contract to deliver a certain quantity of water to any party or parties, shall deliver the same to such party or parties, together with a reasonable and necessary allowance for loss by evaporation and seepage, at some convenient point on the main ditch, canal or reservoir of said person, association or corporation, or on any branch or lateral thereof belonging to the owner or owners of such ditch, canal or reservoir.

42-906. AMOUNT AND LIEN OF RENTAL OR MAINTENANCE.

The amount to be paid by said party or parties for the delivery of said water, which amount may be fixed by contract, or may be as provided by law, is a first lien upon the land for the irrigation of which said water is furnished and delivered. But if the title to said tract of land is in the United States or the state of Idaho, then the said amount shall be a first lien upon any crop or crops which may be raised upon said tract of land, which said lien shall be recorded and collected as provided by law for other liens in this state. And any mortgage or other lien upon such tracts of land that may hereafter be given shall in all cases be subject to the lien for price of water as provided in this section.

42-907. DUTIES OF CONSUMERS -- APPOINTMENT OF MANAGER OF DISTRIBUTING LATERAL.

Where two (2) or more parties take water from said ditch, canal or reservoir at the same point, to be conveyed to their respective premises for any distance through the same lateral or distributing ditch, such parties shall, on or before April first of each year, select some person to have charge during the succeeding season of the distribution of water from such lateral, whose duty it shall be to ascertain and see that the amount of water to which each of the parties interested is entitled is properly apportioned and distributed. It shall be his further duty to see that the said person, association or corporation, contracting to furnish such water shall deliver the amount as provided in section 42-905, [Idaho Code,] and in case of dispute between such person and the said person, association or corporation as to the quantity of water to be delivered, or the amount actually delivered, the matter shall be referred to the department of water resources. The parties entitled to said water shall keep their ditches and laterals in good condition for carrying and distributing the same. In case the parties entitled to the use of water as in this section stated shall neglect or refuse to perform the duties imposed upon them by this section, they shall have no cause for damage against the person, association or corporation furnishing said water for failure to properly furnish and distribute the same.

42-908. MANAGER OF DISTRIBUTING LATERAL -- ALTERNATIVE METHOD OF SELECTION.

Wherever two or more persons take water from any main ditch, canal or reservoir, at the same point, to be conveyed to their respective premises for any distance through the same lateral or distributing ditch, as provided in section 42-905, [Idaho Code,] the person to be selected by such parties on or before April first of each year, as provided in section 42-907, [Idaho Code,] may be selected and appointed by a written instrument designating such person, signed by the majority of such persons so using the said ditch for their said water, and filed with the watermaster or other managing agent or director of such main canal, ditch or reservoir.

42-909. MANAGER OF DISTRIBUTING LATERAL -- APPOINTMENT BY DISTRICT WATERMASTER -- BY DIRECTORS OF IRRIGATION DISTRICT -- PAYMENT OF COMPENSATION.

If two (2) or more parties taking water from any main ditch, canal or reservoir at the same point to be conveyed to their respective premises for any distance, through the same lateral or distributing ditch, do not select a manager for said lateral, as provided in section 42-907[, Idaho Code,] or section 42-908, [Idaho Code,] the watermaster of the water district, shall on the written demand of any one or more of said parties, appoint a manager for said lateral, who shall have and exercise all the powers and perform all of the duties of a manager of the distributing lateral as provided in section 42-910[, Idaho Code]; provided, that if an irrigation district is owner of the main ditch, canal or reservoir, then the board of directors of such district shall, upon such demand, make such appointment.

The compensation of said manager shall be fixed by said watermaster, and shall be paid in the manner provided by section 42-910[, Idaho Code,] for the payment of expenses incurred by him. If not paid, it may be collected, with other damages in the action provided by said section: provided, that if an irrigation district is the owner of the main ditch, canal or reservoir, the board of directors of such district shall fix the compensation of said manager; and at the end of the irrigation season upon the request of such manager the secretary of such district shall prorate the amount of such compensation among the several parties taking water through such lateral, or distributing ditch upon the basis of the number of acres irrigated by each, and mail each a statement of the amount prorated to such party, requesting that remittance be made to such secretary for and on behalf of such manager. In the event such parties or either of them, not later than the date when irrigation district assessments are delinquent, remit to such secretary, he shall, upon receiving same, and without making any entry in his books of account, deliver it to such manager. Should such parties or either of them fail or refuse at such time to remit to said secretary, then such manager may collect as hereinbefore provided.

**42-910. DUTIES OF MANAGER OF DISTRIBUTING LATERAL –
ASSESSMENT OF REPAIR AND MAINTENANCE COSTS –
APPEALS.**

Such person shall be known as the manager of such distributing lateral for the season for which he is selected, and in addition to the powers granted to him by section 42-907[, Idaho Code,] he shall have power to require of each user of such lateral such user's proportion of the amount of labor, material or money reasonably necessary for the proper repair and maintenance of such lateral, and to require measuring weirs, head-gates and checks to be installed for distributing the water among the users, and each user of such lateral shall furnish his proportion of such labor, material or money upon three (3) days' notice so to do, and, in default of so doing, such manager may employ other labor in his place, or furnish the material or money necessary, and such user shall pay to the manager the reasonable value of such material or labor so furnished by the manager, upon demand, in case of default in payment by such user the said manager may sue and collect the same in any court of competent jurisdiction, and in addition to all costs, the court shall allow said manager his reasonable attorney's fees incurred in that behalf.

In the event such water user or water users shall not furnish his or their respective share of such labor, material or money within three (3) days after notice so to do, as hereinabove provided, then said manager may, if he elects, notify the association or corporation delivering water into said distributing lateral of the failure, neglect or refusal of said water users or any of them to furnish his or their respective share of such labor, material or money for the proper repair and maintenance of such lateral or for the furnishing and installation of measuring weirs, head-gates and checks, and upon receipt of such notice said association or corporation may, if it chooses to do so, proceed to furnish all labor, material and money necessary for the proper repair and maintenance of such lateral and for the furnishing and installation of measuring weirs, head-gates and checks, or it may, if it chooses so to do, proceed to repair and maintain said laterals and furnish and install such measuring weirs, head-gates and checks as it shall deem necessary or proper for the distribution of water among the several water users. The cost of such repair and maintenance and the cost of furnishing and installing such measuring devices, head-gates, and checks shall be apportioned among the several water users on the basis of benefits derived therefrom by said water users, and the said association or corporation furnishing said funds or doing the aforesaid things or any of them shall within thirty days after completion thereof give each of such water users written notice of the amount or amounts to be paid by him and demand payment thereof. Should the water users or any of them desire to contest the assessment and apportionment made by such association or corporation, appeal may be taken from such assessment and apportionment to the district court in the county where the principal office of said association or corporation is located within ten (10) days after receipt of said notice and demand for payment, in the same manner as in the case of appeals from the boards of county commissioners. In case of appeal any sum or sums determined by said district court to be due, or in the event no appeal is taken then any sum or sums determined by such association or corporation to be due from any water users, shall be paid by such water user within ninety (90) days and the said association or corporation may refuse to deliver any water to any such water user until the amount due shall have been paid in full.

42-911. USERS OF WATER DEFINED.

The term "users of water" from a community ditch shall be understood to include the owner of the land on which the water is used, or any tenant or other person in possession and control of said premises.

42-912. COMPANY TO FURNISH WATER ON DEMAND.

Any person, company or corporation owning or controlling any canal or irrigation works for the distribution of water under a sale or rental thereof, shall furnish water to any person or persons owning or controlling any land under such canal or irrigation works for the purpose of irrigating such land or for domestic purposes, upon a proper demand being made and reasonable security being given for the payment thereof: provided, that no person, company or corporation shall contract to deliver more water than such person, company or corporation has a title to, by reason of having complied with the laws in regard to the appropriation of the public waters of this state.

42-913. APPLICATION FOR WATER.

Any person or persons owning or controlling land which has or has not been irrigated from any such canal, shall on or before January first of any year, inform the owner or person in control of such canal whether or not he desires the water from said canal for the irrigation of land during the succeeding season, stating also the quantity of water needed. In distributing water from any such canal, ditch or conduit during any season, preference shall be given to those applications for water for land irrigated from said canal the preceding season, and a surplus of water, if any there be, shall be distributed to the lands in the numerical order of the applications for it. But no demand for the purchase of a so called perpetual water right, or any contract fixing the annual charges or the quantity of water to be used per acre, shall be imposed as a condition precedent to the delivery of water annually as provided in this chapter; but the consumer of water shall be the judge of the amount and the duty of the water required for the irrigation of his land; and the annual charges to be made and to be fixed under the further provisions of this title, shall hereafter be based upon the quantity of water delivered to consumers, and shall not in any case depend upon the number of acres irrigated by means of such amount of water delivered.

42-914. SALE OR RENTAL CONSTITUTES A DEDICATION – DOMESTIC PURPOSES CONSTRUED -- LIABILITY FOR VIOLATION.

Whenever any waters have been or shall be appropriated or used for agricultural or domestic purposes under a sale, rental or distribution thereof, such sale, rental or distribution shall be deemed an exclusive dedication to such use upon the tract of land for which such appropriation or use has been secured, and, whenever such waters so dedicated shall have once been sold, rented or distributed to any person who has settled upon or improved land for agricultural purposes with the view of receiving the benefit of such water under such

dedication, such person, his heirs, executors, administrators, successors or assigns, shall not thereafter be deprived of the annual use of the same when needed for agricultural or domestic purposes upon the tract of land for which such appropriation or use has been secured, or to irrigate the land so settled upon or improved, upon payment therefore, and compliance with such equitable terms and conditions as to the quantity used and times of use as may be prescribed by law. "Domestic purposes" shall not be construed to include any manner of land irrigation. Any person, association or corporation violating any of the provisions of this section, shall be liable for all damage to any party or parties injured thereby, which damage shall be determined by the proper court.

42-915. CONSUMER'S TITLE NOT AFFECTED BY TRANSFER OF DITCH.

When any payment is made under the terms of a contract, by means of which payment a perpetual right to the use of water necessary to irrigate a certain tract of land is secured, said water right shall forever remain a part of said tract of land, and the title to the use of said water can never be affected in any way by any subsequent transfer of the canal or ditch property or by any foreclosure or any bond, mortgage or other lien thereon; but the owner of said tract of land, his heirs or assigns, shall forever be entitled to the use of the water necessary to properly irrigate the same, by complying with such reasonable regulations as may be agreed upon, or as may from time to time be imposed by law. And said payment for said water right shall be a release of any bond or mortgage upon the canal property of the person or company from whom such right is purchased or their successors or assigns, to the amount of such water right thus purchased and paid for, and said person or company from whom such water right is purchased shall furnish to the party or parties purchasing such right a release, or a good and sufficient bond for a release, from said mortgage or bonded indebtedness to the amount of the water right thus purchased.

42-916. LIABILITY FOR WASTE OF WATER.

No person entitled to the use of water from any such ditch or canal, must, under any circumstances, use more water than good husbandry requires for the crop or crops that he cultivates; and any person using an excess of water, is liable to the owner of such ditch or canal for the value of such excess; and in addition thereto, is liable for all damages sustained by any other person, who would have been entitled to the use of such excess water, as fixed by this section.

TITLE 42

CHAPTER 12

MAINTENANCE AND REPAIR OF DITCHES

42-1208. EASEMENTS OR RIGHTS-OF-WAY NOT SUBJECT TO ADVERSE POSSESSION.

Easements or rights-of-way of irrigation districts, Carey act operating companies, nonprofit irrigation entities, lateral ditch associations, and drainage districts are not subject to adverse possession, and no person shall prevent free access of authorized personnel on easements or rights-of-way or construct any obstruction on easements or rights-of-way in an effort to adversely possess said easement or right-of-way.

TITLE 43

CHAPTER 15

MISCELLANEOUS PROVISIONS OF DISTRICT LAW

43-1505. IRRIGATION LATERAL DISTRICTS.

For the purpose of constructing, operating, and managing water in distributing systems by means of laterals, sublaterals, ditches, flumes, and pipe lines, an irrigation lateral district may be organized and created within the territory already organized as an irrigation district, in the same manner and by the same process required by the provisions of this title, for the creation of an irrigation district from unorganized territory, and such interior irrigation lateral district, when organized shall through its board of directors, other officers and employees have all necessary powers for the purpose of its creation conferred by this title upon the original irrigation district, including the power to issue, negotiate and sell bonds payable and secured as is in this title provided; to build and construct new works and to levy assessments and taxes necessary for the purpose of conducting its affairs in the same manner and by the same process as are by this title provided in the case of irrigation districts; provided, however, it is distinctly understood that the negotiation and sale of coupons bonds and levying of assessments and taxes and incurring of debts and obligations by any such irrigation lateral district shall not in any way or manner affect any of the bonds, assessments, taxes, or obligations of the irrigation district of which it is a part and shall not in any way or manner limit the power of such original irrigation district to incur the indebtedness, levying of assessments and issue its bonds for any of the purposes for which such district is by this title entitled to levy or issue the same.

TITLE 18

CHAPTER 1

PRELIMINARY PROVISIONS

18-113. PUNISHMENT FOR MISDEMEANOR.

(1) Except in cases where a different punishment is prescribed in this code, every offense declared to be a misdemeanor, is punishable by imprisonment in a county jail not exceeding six (6) months, or by a fine not exceeding one thousand dollars (\$1,000), or by both.

(2) In addition to any other punishment prescribed for misdemeanors in specific statutes of the Idaho Code, the court may also impose a fine of up to one thousand dollars (\$1,000). This paragraph shall not apply if the specific misdemeanor statute provides for the imposition of a fine.

18-113A. PUNISHMENT FOR INFRACTION.

Every offense declared to be an infraction is punishable only by a penalty not exceeding three hundred dollars (\$300) as provided in this section and no imprisonment. The penalty for an infraction shall be:

- (1) The amount set by statute;
- (2) Subject to subsection (1) of this section, the amount set as a fixed penalty for that infraction as of January 1, 2014, by the Idaho supreme court infraction rule 9, excepting subsection (38) of infraction rule 9 for "other infractions";
- (3) The amount set by city or county ordinance for which the city or county has authority to impose a penalty and which is not otherwise set under subsection (1) or (2) of this section;
- (4) An amount set by the sentencing court in its discretion where the statute or ordinance authorizing the penalty for a specific infraction violation sets an upper penalty limit using language such as "not to exceed" or "not more than" a specific amount; or
- (5) Fifteen dollars and fifty cents (\$15.50) for an infraction without a specific penalty set under subsection (1), (2) or (3) of this section, or having no specific upper limit for which the sentencing court has discretion under subsection (4) of this section.

18-113B. INCARCERATION OF JUVENILES FOR MISDEMEANOR OR FELONY OFFENSES.

(1) Juveniles committing offenses which lie outside the scope of the juvenile corrections act, chapter 5, title 20, Idaho Code, and not charged under section 20-508 or 20-509, Idaho Code, may, in the discretion of a court or arresting officer, be placed in a juvenile detention facility or juvenile shelter care facility rather than in a county jail pending arraignment or trial, if arrested or held on bond. The option of placing a juvenile in such a facility shall not affect the misdemeanor or felony status of the offense.

(2) Juveniles committing offenses which lie outside the scope of the juvenile corrections act, chapter 5, title 20, Idaho Code, and not charged under section 20-508 or 20-509, Idaho Code, may, in the discretion of the court, be sentenced:

- (a) To serve time in a juvenile detention facility rather than in a county jail; or
- (b) To serve time in a community sentencing alternative when a mandatory minimum period of incarceration is not required by statute.

The option of placing a juvenile in such a facility shall not affect the misdemeanor or felony status of the offense.

TITLE 18

CHAPTER 43

IRRIGATION WORKS

18-4301. INTERFERENCE WITH DITCHES, CANALS, LATERALS, DRAINS OR RESERVOIRS.

Every person who shall, without authority of the owner or managing agent, and with intent to defraud, take water from any canal, ditch, lateral, drain, flume or reservoir, used for the purpose of holding, draining or conveying water for manufacturing, agricultural, mining, or domestic uses, or who shall, without like authority, raise, lower, or otherwise disturb, any gate or other appurtenance thereof used for the control or measurement of water, or who shall empty or place, or cause to be emptied or placed, into any such canal, ditch, lateral, drain, flume, or reservoir, any rubbish, filth, or obstruction to the free flow of water, is guilty of a misdemeanor.

18-4302. WASTING WATER USED FOR IRRIGATION.

Any person or persons, who shall willfully or wantonly waste any of the waters of any stream, the waters of which are used for irrigation, to the detriment of any claimant of such water for irrigation purposes, by diverting the same for an unnecessary use or purpose, or by allowing such water to waste by running into depressions or dry channels so that the same cannot be used for irrigation, nor reach the original channel of the stream from which it has been diverted, are guilty of a misdemeanor.

18-4303. OBSTRUCTION OF OVERFLOW, GAUGE OR WATERWAY IN DAM.

Any person or persons who shall obstruct any overflow, gauge or waterway, placed in any dam by order of any water master, so as to impede the flow of water over such dam as regulated by the water master, shall be guilty of a misdemeanor.

18-4304. WRONGFUL DIVERSION OF WATER.

Any person who without the consent of the water master of the district, diverts any water from a ditch or channel where it has been placed, or caused or left to run by the water master or his deputies, or who shuts or opens any ditch, gate or dam, or in any way impedes or increases the flow of water in any stream or ditch diverting water from a stream, while the same is under the charge of a water master, or who cuts away any embankment of a stream, whereby the water of such stream is diverted, or breaks, injures, or removes any gate, flume or other device used for the equitable distribution of the water of such stream by the water master, shall be guilty of a misdemeanor.

18-4305. INTERFERENCE WITH HEADGATE -- CUTTING BANKS OF STREAM.

If any obstruction shall be wilfully and maliciously placed on any overflow gauge in any stream of water which is used for irrigation and is under control of a water master, and such obstruction retards or impedes the free overflow of the water of such stream, thereby increasing the pressure against a headgate through which water is diverted by means of such dam, or if any headgate regulated by a water master shall be removed, broken, injured or interfered with so as to disturb the distribution of the water as regulated by the water master, or if any bank of the natural stream, the water of which is being used for irrigation and is being distributed by a water master, shall be cut away so as to increase the flow of water from such stream, thereby interfering with the distribution of the water as regulated by a water master, the person or persons so interrupting the flow of said water as aforesaid, shall be guilty of a misdemeanor.

18-4306. INJURIES TO DITCHES, CANALS, LATERALS, DRAINS AND APPURTENANCES.

Any person or persons, who shall willfully cut, break, damage, or in any way interfere with any ditch, canal, lateral, drain, headgate, or any other works in or appurtenant thereto, the property of another person, irrigation district, drainage district, canal company, corporation, or association of persons, and whereby water is conducted to any place for beneficial use or purposes, and when said canal, headgate, ditch, lateral, drain, dam, or appurtenance is being used or is to be used for said conduct or drainage of water, shall be guilty of a misdemeanor.

18-4307. INJURY TO MEASURING DEVICES.

Any person or persons who shall cut, break, injure, destroy, enlarge, change, or alter any headgate, sluiceway, weir, water box, or other measuring device, the property of any irrigation district, corporation or association of persons, or in the possession of, or in the use of, said irrigation district, corporation, or association, or the property of another, shall be guilty of a misdemeanor.

Any person or persons who shall change, alter, destroy, disturb, enlarge, or interfere with any headgate, dam, weir, water box, or other measuring device, made, placed, used or regulated by any duly appointed, elected, or authorized water master, deputy water master, ditch walker, ditch rider, engineer, or other authorized agent of any irrigation company, corporation or association or person, when said measuring device is being used or is to be used for the measurement of water, shall be guilty of a misdemeanor.

18-4308. CHANGE OF DITCH, CANAL, LATERAL, DRAIN OR BURIED IRRIGATION CONDUIT.

Where any ditch, canal, lateral or drain has heretofore been, or may hereafter be, constructed across or beneath the lands of another, the person or persons owning or controlling the said land, shall have the right at his own expense to change said ditch, canal, lateral, drain or buried irrigation conduit to any other part of said land, but such change must be made in such a manner as not to impede the flow of the water therein, or to otherwise injure any person or persons using or interested in such ditch, canal, lateral, drain or buried irrigation conduit. Any increased operation and maintenance shall be the responsibility of the landowner who makes the change.

A landowner shall also have the right to bury the ditch, canal, lateral or drain of another in pipe on the landowner's property, provided that the pipe, installation and backfill reasonably meet standard specifications for such materials and construction, as set forth in the Idaho standards for public works construction or other standards recognized by the city or county in which the burying is to be done. The right and responsibility for operation and maintenance shall remain with the owner of the ditch, canal, lateral or drain, but the landowner shall be

responsible for any increased operation and maintenance costs, including rehabilitation and replacement, unless otherwise agreed in writing with the owner.

The written permission of the owner of a ditch, canal, lateral, drain or buried irrigation conduit must first be obtained before it is changed or placed in buried pipe by the landowner.

While the owner of a ditch, canal, lateral, drain or buried irrigation conduit shall have no right to relocate it on the property of another without permission, a ditch, canal, lateral or drain owner shall have the right to place it in a buried conduit within the easement or right-of-way on the property of another in accordance with standard specifications for pipe, materials, installation and backfill, as set forth in the Idaho standards for public works construction or other standards recognized by the city or county in which the burying is to be done, and so long as the pipe and the construction is accomplished in a manner that the surface of the owner's property and the owner's use thereof is not disrupted and is restored to the condition of adjacent property as expeditiously as possible, but no longer than thirty (30) days after the completion of construction. A landowner shall have the right to direct that the conduit be relocated to a different route than the route of the ditch, canal, lateral or drain, provided that the landowner shall agree in writing to be responsible for any increased construction or future maintenance costs necessitated by said relocation. Maintenance of the buried conduit shall be the responsibility of the conduit owner.

Any person or persons who relocate or bury a ditch, canal, lateral or drain contrary to the provisions of this section shall be guilty of a misdemeanor.

18-4309. UNAUTHORIZED TAMPERING WITH MEASURING DEVICES.

Every person who shall willfully waste water for irrigation, or who shall willfully open, close, change or disturb, or interfere with, any headgate or water box or valve or measuring or regulating device, without authority, shall be guilty of a misdemeanor. The water masters or their assistants, within their district, shall have power to arrest any person or persons offending and turn them over to the sheriff or the nearest peace officer of the county in which such offense is committed, and immediately upon delivering such person so arrested into the custody of either of such officers, it shall be the duty of the water master making such arrest to make complaint, in writing and under oath, before the magistrate judge of such county, against the person so arrested.

18-4310. NEGLECT TO DELIVER WATER -- INTERFERENCE WITH DELIVERY.

Any superintendent or any person having control or charge of the said ditch, canal or conduit, who shall willfully neglect or refuse to deliver water as provided in chapter 9, of title 42, or person or persons who shall prevent or interfere with the proper delivery of water to the person or persons having a right thereto, shall be guilty of a misdemeanor; and the owner or owners of such ditch, canal or conduit shall be liable in damages to the person or persons deprived of the use of water to which they were entitled as provided in said chapter 9.
